Laser Skin Rejuvenation

Treatment available at all locations

Halo - Combination Fractional Resurfacing

The Halo is the world's first ablative and non-ablative combination laser.

Halo Bright Full Face HALO + BBL	_____	\$1,859.00
Halo Bright Neck HALO + BBL	_____	\$989.00
Halo Bright Chest HALO + BBL	_____	\$1,139.00
Halo Full Face	_____	\$1,599.00
Neck	_____	\$839.00
Décolletage	_____	\$839.00
Lower Abs	_____	\$1,040.00

AesthetiCare is proud to be the first in the Midwest to have this amazing system. The Halo gives the results of laser resurfacing without the extended downtime.

It is the most effective treatment for overall skin rejuvenation including dramatically improving sun-damage, vascularity, wrinkles, enlarged pores, acne scars, etc.

Buttox/Upper Thigh	_____	\$1,599.00
Half Arm	_____	\$839.00
Hands	_____	\$529.00
Knees	_____	\$629.00
Topical PDGF+ Enhancer	_____	\$399.00
Topical Exosome Enhancer	_____	\$239.00
PRP Treatment Enhancer	_____	\$350.00
Core Treatment Enhancer	_____	\$255.00

Combine any two qualifying laser treatments in the same zone/appt and receive a 15% discount off the 2nd treatment of equal or lesser value. (Halo, Moxi, MLP, Profrac or BBL) While we don't combine multiple discounts, we always provide you with the most favorable offer. In the case of having annual Party Credit, your 20% "party money" is your best deal.

Treatment available at all locations

Moxi Laser

Moxi is the latest way to revitalize and refresh your skin's appearance by correcting uneven pigmentation and improving tone and texture.

MOXI BRIGHT = MOXI + BBL

Moxi Bright Full Face	_____	\$1,049.00
Moxi Bright Neck	_____	\$759.00

AesthetiCare Medspa + Wellness • greatskinc.com • Updated May, 2026. Rates subject to change.

Treatment available at all locations

Sciton MicroLaser Peel

This laser utilizes a short-pulsed Erbium laser to ablate the outer layers of the skin at precise depths. We offer these "peels" from 4–50+ microns. This treatment delivers excellent results for poor skin tone, fine lines and wrinkles, acne scars, sun-damage, etc.

The MicroLaser Peel is ideal for total skin rejuvenation. One 10-micron MicroLaser Peel is the equivalent of 4-6 microderm-abrasion treatments. You may experience 1-7 days of redness, swelling, and/or peeling with this procedure depending on the depth. We may recommend a series of treatments depending on your skin and schedule.

Depth of Peel	Face	Neck	Eyes, Cheeks, Mouth or Hands	Chest
Light (up to 15 microns)	\$499.00	\$399.00	\$299.00	\$499.00
Medium (16-35 microns)	\$899.00	\$699.00	\$599.00	\$799.00
Deep (35+ microns includes two LED treatments)	\$1,499.00	N/A	\$999.00	N/A

TRL Mouth

(Total Resurfacing Laser includes two LED treatments)

\$999.00

TRL Eyes

(Total Resurfacing Laser includes two LED treatments)

\$799.00

Combine any two qualifying laser treatments in the same zone/appt and receive a 15% discount off the 2nd treatment of equal or lesser value. (Halo, Moxi, MLP, Profrac or BBL) While we don't combine multiple discounts, we always provide you with the most favorable offer. In the case of having annual Party Credit, your 20% "party money" is your best deal.

Sciton Profractional Laser Treatment

ProFractional is a laser procedure used for dramatically improving the overall appearance of your skin including wrinkles, scars, tone and texture.

ProFractional uses a laser microbeam to treat thousands of pinpoint areas of your skin. Because only a fraction of the skin is directly treated with the laser, healing time is quick, and downtime is short. You may experience some pinpoint bleeding and 2-4 days of redness and/or peeling with this procedure depending on the depth. We may recommend a series of treatments depending on your skin and schedule.

Depth of Peel	Face	Neck	Eyes, Cheeks, Mouth or Hands	Chest
Medium (up to 100 microns)	\$699.00	\$699.00	\$599.00	\$799.00
Deep (125+ microns includes two LED treatments)	\$1,299.00	N/A	\$899.00	N/A

Combine any two qualifying laser treatments in the same zone/appt and receive a 15% discount off the 2nd treatment of equal or lesser value. (Halo, Moxi, MLP, Profrac or BBL) While we don't combine multiple discounts, we always provide you with the most favorable offer. In the case of having annual Party Credit, your 20% "party money" is your best deal.

Treatment available at all locations

Forever Young BBL Anti-Aging Treatment

The FYBBL protocol utilizes multiple passes and a variety of light filters to not only address sun-damage and vascularity, but also to reverse aging and improve wrinkles and texture.

Full-Face	_____	\$439.00
Neck	_____	\$329.00

A study by Stanford University showed that after Forever Young treatments, your genes express themselves at an age younger than they actually are!

An initial series of 3-5 is recommended. For long-term anti-aging, we recommend the following: If you are 50 or younger, two times per year. If you are over 50, three times per year.

Décolletage	_____	\$439.00
Upper Face (above beard)	_____	\$269.00

Combine any two qualifying laser treatments in the same zone/appt and receive a 15% discount off the 2nd treatment of equal or lesser value. (Halo, Moxi, MLP, Profrac or BBL) While we don't combine multiple discounts, we always provide you with the most favorable offer. In the case of having annual Party Credit, your 20% "party money" is your best deal.

Treatment available at all locations

Advanced Intense Pulse Light/BBL Corrective Treatments

AesthetiCare offers the most advanced and widest variety of IPL/BBL (intense pulsed light) technology.

Neck	_____	\$229.00
Décolletage	_____	\$319.00
T-Zone	_____	\$229.00
Upper Face (above beard / under eye)	_____	\$219.00
Cheeks	_____	\$189.00
Shoulders	_____	\$329.00

IPL/BBL is often called photo-rejuvenation or photofacial. It is the gold-standard for the treatment of hyperpigmentation, sun-damage, rosacea, vascular lesions, active acne, etc.

You may notice positive changes even after your very first session. We recommend an initial series of 3-5 treatments, one every two-four weeks. Depending on the condition of the skin, more treatments may be necessary. Many people maintain their results with an additional maintenance treatment every 4-6 months.

Full Arms	_____	\$539.00
Full Legs	_____	\$699.00
Half Legs	_____	\$499.00
Forearm/Hands	_____	\$379.00
Hands	_____	\$169.00
Mouth	_____	\$169.00
Spot Treatment / Min	_____	\$129.00

Combine any two qualifying laser treatments in the same zone/appt and receive a 15% discount off the 2nd treatment of equal or lesser value. (Halo, Moxi, MLP, Profrac or BBL) While we don't combine multiple discounts, we always provide you with the most favorable offer. In the case of having annual Party Credit, your 20% "party money" is your best deal.

Skin Contouring & Tightening Treatments

Treatment available at all locations

Sofwave

Using Sofwave's proprietary Synchronous Ultrasound Parallel Beam Technology, SUPERB™, energy precisely passes through the skin's surface (the epidermis), heating the mid-dermal tissue at just the right depth and temperature to rejuvenate collagen fibers and improve the overall appearance of the face. The Sofwave treatment is non-invasive and there is no downtime. This treatment is ideal for those who do not want a surgical procedure but want lifting and tightening of aging skin. Deposit required to book a treatment.

Full-Face & Upper Neck	\$2,700.00	Full Neck	\$1,700.00
Full Face & Full Neck	\$3,100.00	Lips	\$500.00
Lower Face & Upper Neck	\$1,900.00	Brow	\$750.00
Lower Face & Full Neck	\$2,400.00	Décolletage	\$1,200.00
Upper Face (Eye & brow lift)	\$1,200.00	Full Face	\$2,400.00

Treatment available at all locations

Indiba Skin Tightening

Exilis Ultra and Indiba are both non-invasive aesthetic devices that utilizes radio frequency with no downtime. Having both devices allows us to give more options and availability to clients.

Using safe thermal energy, patients experience a comfortable, deep heating sensation with each short treatment. Treatment time varies by anatomical zone.

Patients are encouraged to drink plenty of water two days prior to and after the treatment and should also plan to exercise the evening of treatment. Typically, 4 treatment sessions within 4 to 6 weeks are recommended.

Full Face Includes submental	\$699.00	Eyes	\$299.00
Full Face + Neck (Forehead to collarbone)	\$799.00	Abdomen	\$399.00 - \$499.00
Neck (Jaw line to collarbone)	\$359.00	Arms (Elbow to shoulder)	\$499.00 - \$599.00
Lower Face Includes submental	\$499.00	Thighs (Front or back)	\$499.00 - \$599.00
Lower Face + Neck	\$599.00	Buttocks	\$499.00 - \$599.00

Treatment available at KC, Liberty & Lenexa locations

CoolSculpting + ZWave

CoolSculpting is an FDA cleared device for fat reduction and sculpting. It delivers precise controlled cooling to effectively target the fat cells underneath the skin.

Starting Price

Price per cycle will vary depending on the number of cycles purchased.

The fat cells are crystallized (frozen) and die, then are gradually eliminated from your body. We are excited to announce that we are the first in Kansas to offer a new innovative technology called ZWave, which improves CoolSculpting treatment results. When used following your CoolSculpting treatment it increases the efficacy up to 30% over massage alone! **We include the Zwave at no additional charge** and the results are undeniable and permanent.

- *Complementary consultations are required.
- *A \$150 Deposit is required to book a treatment.

Treatment available at all locations

Sculptra Booty Lift

Sculptra is a bio stimulator that stimulates collagen growth in the skin offering an option other than surgery.

Sculptra Session

(price and number of sessions determined at consultation)

\$3,999-\$4,499

The Sculptra booty lift allows you to add roundness or fullness to a butt that has a flat appearance. Fill in dimples and help with "hip dip". The cost of a Sculptra butt lift varies based on your unique aesthetic goals and the amount of volume you want to add to your buttocks. It is common to use up to 5 vials of Sculptra for each side of your buttocks. With 2-3 treatment sessions, this equates to 20-30 vials.

- *Complementary consultations are required.

Treatment available at KC location only

Emsculpt Neo

Available at our KC location - The Neo utilizes 2 energy sources: Radiofrequency to attack fat, and High Intensity Focused Electromagnetic Energy to strengthen and define muscles.

Abs, Glutes, Calves, Arms

1 series = 6 treatments _____ **\$1,999**

Pictures 2-4 weeks post.

After 6 treatments, clinical studies show up to a 25% increase in muscle and up to a 30% decrease in subcutaneous fat (the outer fat that gives our bodies shape). As well, a new study shows a 16% decrease in visceral fat, which is the deep fat in your body that is the most dangerous to our health.

The difference between the Neo and the Legacy (at our Liberty location) is the addition of Radiofrequency.

Maintenance Treatment _____ **\$299 each**
after initial series
or 12 for \$3,000

***Complementary consultations are required.**

Treatment available at Liberty location only

Emsculpt Legacy

Available at our Liberty location - Emsculpt is the first device of its kind to address muscle by utilizing electromagnetic energy (MRI), to cause a major contraction of the muscle.

Abs, Glutes, Calves, Arms

1 series = 6 treatments _____ **\$1,999**

Pictures 2-4 weeks post.

This 30-minute session is the equivalent of 20,000 sit-ups when treating abs, or 20,000 lunges when treating glutes. When treating abs, it also can cause up to a 19% reduction in fat.

The difference between the Neo (at our KC location) and the Legacy is the addition of Radiofrequency.

Maintenance Treatment _____ **\$299 each**
after initial series
or 12 for \$3,000

***Complementary consultations are required.**

Treatment available at KC & Liberty locations

Tighten & Tone

INDIBA and Emsculpt are the pinnacle of power duos when it comes to toning and tightening areas of your body.

Our Tighten & Tone Package – using electromagnetic and radio frequency technologies in a combined treatment package can help to give you maximized results in the abdomen or booty.

*1 SERIES BY TREATMENT AREA. A SERIES OF 4 EMSculpt Neo treatments in KC and 6 EMSculpt Legacy in Liberty. A SERIES OF 4 INDIBA treatments to be scheduled immediately after each EMSculpt treatment.

Abdomen Package _____ **\$2,999**

Booty Package _____ **\$2,999**

***Complementary consultations are required.**

Fractional RF Microneedling

Treatment available at Liberty location only

INTRAcel

Intracel utilizes insulated micro needles that deliver radio frequency energy to the dermal layer of your skin. It is safe on all skin types, including tanned skin. Intracel has proven to be effective for acne scars, stretch marks, active acne, skin tightening, enlarged pores, as well as overall skin rejuvenation. We utilize a topical numbing cream to make this procedure very tolerable. There is normally only 1-2 days of redness and minor swelling. We recommend 1-3 treatments depending on your skin condition.

Full Face	_____	\$749.00	Acne scars, Stretch Marks, and other zones	_____	(Priced upon consultation)
Neck	_____	\$449.00	Topical PDGF+ Enhancer	_____	\$399.00
Décolletage	_____	\$449.00	Topical Exosome Enhancer	_____	\$239.00
			PRP Treatment Enhancer	_____	\$350.00
			Core Treatment Enhancer	_____	\$255.00

Treatment available at KC & Lenexa locations

Genius

Genius is the most advance microneedling radio frequency device available on the market today. It is the only device of it's kind that utilized impedance measuring to ensure precise delivery of radio frequency energy. Genius is an ideal treatment for acne scars, enlarged pores, stretch marks, fine lines and/or laxity in the skin, scar revision, and overall skin rejuvenation. We utilize a topical numbing cream to reduce discomfort during the treatment. You may experience 1-2 days of redness and/or minor swelling. The number of recommended treatments will vary depending on age and condition of the skin.

Full Face	_____	\$849.00	Acne scars, Stretch Marks, and other zones	_____	(Priced upon consultation)
Lower Face + Neck	_____	\$849.00	Topical PDGF+ Enhancer	_____	\$399.00
Lower Face + Upper Neck	_____	\$699.00	Topical Exosome Enhancer	_____	\$239.00
Neck	_____	\$599.00	PRP Treatment Enhancer	_____	\$350.00
Décolletage	_____	\$599.00	Core Treatment Enhancer	_____	\$255.00

Combine any additional zone(s) in same appt and receive a 15% discount off the additional treatment(s) of equal or lesser value. While we don't combine multiple discounts, we always provide you with the most favorable offer. In the case of having annual Party Credit, your 20% "party money" is your best deal.

Treatment available at all locations

Product Boost Bundle

Expedite healing with our 3-in-1 product bundle to speed recovery time and reduce inflammation, irritation and heat.

3-in-1 After Care Products **\$400.00**

Omni's Daily Restorative Serum
Omni's Core Recovery Complex
Omni's Boost Recovery Mask

Cellulite Therapy

Treatment available at all locations

Sculptra Cellulite Therapy

Cellulite is experienced by over 80% of women at some time in their lives. Cellulite is caused by fat cells that get trapped close to the skin and swell, creating dimples. Sculptra Cellulite Therapy is a long-lasting solution to unwanted cellulite.

Sculptra per vial _____ **\$699.00**

(price and number of vials determined at consult - typically 2-4 vials spaced between 1 -2 treatment sessions is required)

Utilizing a method called subcision, our trained providers release the septi that causes the dimpling and follow by injecting Sculptra in the affected area. This plumps the dimple out and creates a smooth skin surface. The area is numbed first, so there is very little discomfort. As well, outside of temporary bruising, there is very little downtime. The provider may suggest wearing compression for a short period of time to speed up the healing process.

***Complementary cellulite consultations are required.**

Treatment available at KC location only

Aveli

Cellulite is experienced by over 80% of women at some time in their lives. Cellulite is caused by fat cells that get trapped close to the skin and swell, creating dimples. Sculptra Cellulite Therapy is a long-lasting solution to unwanted cellulite.

Price at Consultation _____ **\$2,500.00 - \$6,000.00**

While most treatments approach cellulite from the outside in, Avéli identifies and releases septa bands, the primary structural cause of cellulite, from the inside out in a single minimally invasive procedure. Experience their release in real-time, delivering visibly smoother skin quickly with minimal downtime.

***Complementary cellulite consultations are required.**

Treatment available at KC & Liberty locations

MiraDry for Excessive Sweating

The MiraDry system utilizes microwave energy to destroy the sweat glands under the arm.

Studies show that after 2 treatments, more than 87% of the glands are destroyed. This is a permanent solution to excessive sweating and odor. Deposit required.

1st Treatment ————— \$1,799.00

2nd Treatment ————— \$1,599.00

Vein Therapy

Treatment available at all locations

Sclerotherapy + Laser

AesthetiCare offers a variety of vein treatments. Utilizing both sclerotherapy and laser, we have the ability to treat a wide variety of leg, facial, and body veins and vascular lesions.

Sclerotherapy utilizes a sclerosing agent injected into the vein with a very small needle. In addition to being completely safe, sclerotherapy is also very effective in alleviating symptoms related to unwanted spider veins such as aches, tenderness, throbbing, itching, and restlessness. Our vascular nurse will consult with you and advise you to the best treatment options.

Minimum Charge ————— \$225.00

Trapped Blood Removal ————— \$100.00

30-minute Session ————— \$450.00

Treatment available at all locations

Laser Hair Removal

AesthetiCare owns multiple FDA approved laser/light systems for hair removal.

With our advanced technology, we will be able to offer you the most effective treatment available for you!

All our lasers are operated by highly trained technicians. We can treat all skin colors. We will recommend anywhere from 6 – 12 treatments depending on the area of the body and the color of the hair. Maintenance treatments can be scheduled usually 1-2 times a year after you have completed your initial series of treatments to maintain long term hair reduction.

Kybella	_____	\$699.00

Treatment available at all locations

PDGF+

Growth factors are natural proteins your body uses to heal and build healthy skin. PDGF+ is a growth factor that works deep inside your skin to “wake up” your fibroblasts (the cells that make collagen and keep skin strong and youthful).

PDGF+ Topical	_____	\$399.00 - 649.00
------------------	-------	--------------------------

By stimulating collagen and hyaluronic acid production, it helps your skin repair itself faster, reduce inflammation, and improve overall tone and texture. Think of it like giving your skin a supercharged boost to heal better after treatments, bounce back quicker, and look healthier from the inside out. Best part? Unlike PRP/PRF, it doesn't require a blood draw and is far more powerful—meaning less downtime and faster, visible results.

***Please discuss with your provider if PDGF+ is right for you!**

Treatment available at KC, Lenexa & Overland Park location

PRP

PRP stimulates new collagen and elastin using your natural biology, trigger new cells over the next 6-8 weeks.

5mL ————— \$499.00

Platelet-rich plasma (PRP) from the client's blood is extracted and applied topically to improve the appearance of wrinkles, scars, stretch marks and helps to tighten pores and treat volume loss.

10mL ————— \$699.00

Medical Facials

Treatment available at all locations

Trans4mation Medical Facial

Ready for the ultimate exfoliation and skin rejuvenation? Our Trans4mation Medical Facial focuses on 4 key benefits: the skin.

Full Face ————— \$289.00

- 1: (manual exfoliation): microdermabrasion/dermaplane
- 2: (chemical exfoliation): chemical peel
- 3: (pore cleansing/hydration)-steam, mask, ultrasonic pore cleansing
- 4: LED light rejuvenation

With no downtime and great for all skin types, this is the perfect facial to improve the overall texture and tone of the skin.

Treatment available at all locations

HydraFacial MD

The HydraFacial resurfacing procedure thoroughly enhances the skin by removing dead skin cells and impurities while simultaneously infusing the new skin with cleansing, hydrating and moisturizing solutions.

This treatment is ideal for all skin types and conditions including hyperpigmentation, fine lines, acne and rosacea.

Purchase 4 at one time and receive 15% off.

Chemical Peels

Chemical peels treat skin conditions and imperfections and are an excellent way to address acne, sun damage, poor skin tone, enlarged pores, blotchy skin, and fine lines and wrinkles.

A series of several treatments is recommended for best results.

Purchase 4 at one time and receive 15% off.

VI Peel

\$349.00

VI Peel Add on Chest

\$89.00

There are 6 unique VI Peel formulations, each designed to treat specific skin concerns. These medium-depth chemical peels are painless, safe for all skin types and tones, and are designed to deliver noticeable results. During your consultation with one of our skincare specialists, they will assess your skin and recommend the correct peel to suit your needs.

VI Peel Precision Plus: This medium-depth chemical peel addresses dark spots and sun damage while encouraging rapid cell turnover to reveal brighter, more even skin tone.

VI Peel Purify with Precision Plus: This dual-action chemical peel works to address acne, acne scarring, and pigmentation. It works to cleanse pores to prevent future breakouts and address discoloration and scarring to brighten and cleanse skin.

VI Peel Purify: This powerful chemical peel treats active acne and stops future breakouts from occurring. By targeting dead skin cells that clog pores and removing excess oil from the skin, this peel smooths and soothes acne-prone skin.

VI Peel Advanced: This anti-aging chemical peel is ideal for patients over 40 who are concerned with the appearance of fine lines, wrinkles, and lax skin. This peel penetrates deeper to soften the appearance of lines and trigger collagen production for long-lasting skin improvement.

VI Peel Original: This chemical peel works for all ages and skin types to address a variety of skin concerns, including tone and texture, dark spots, and dullness.

VI Peel Body: This first-of-its-kind chemical peel designed for the body targets trouble areas like the chest, shoulders, and back. Designed to encourage cell turnover and remove dead skin cells, this body peel addresses active acne, pigmentation, scarring, stretch marks, and lax skin.

New Service _____ **\$695.00**
Male New Service _____ **\$795.00**

Touch up _____ **\$225.00**
 (Price determined at consult) **- \$425.00**

Microblading: Hair like strokes created with a hand tool blending in with natural eyebrow hair best for clients with very good skin texture normal to dry and who have eyebrow hair. This technique requires color refresh typically every 10-12 months and works on only very select skin types.

Hairstrokes: Hairlike strokes created with a machine blending in with natural eyebrow hair. This technique is best for most skin types but not for oily skin and not for clients with very patchy or minimal brow hair or poor skin texture. Best for client who have eyebrow hair. This technique requires a color refresh typically every 12-14 months.

Hybrid or Combo (hairstrokes with subtle shading done by machine): This is our signature technique as it looks the most natural and has good longevity. Hairlike strokes are used to create detail while a soft powdering of color is put behind the hairstrokes to create fullness and realism. This technique works well on most skin types, older skin, patchy brows, or eyebrows with little to no natural hair and typically requires a color refresh every 14-18 months.

Powder Brows: Soft and subtle or bold and glamorous powder brows create the look of a soft daytime makeup look or can resemble a bolder makeup look. Powder brows require the least maintenance and last the longest of all the brow styles. Pixels of color are layered to create a brow that looks like brow powder has been added filling in color behind eyebrow hair or creating a new eyebrow where there is little to no hair. This type of brow works on all skin types and typically requires a color refresh every 18-24 months.

 clients from another artist

Tabori Liner: Eyeliner that is done primarily with a hand tool. This technique is the gentlest way of doing permanent eyeliner. This technique works best on most skin types and creates a smokey pencil liner effect vs a liquid liner effect. Eyeliner is customized to you and can be done very subtly or very bold depending on your personal preference. This technique requires a color refresh every 18-24 months.

L I P S *Please note all lip procedures are done with a nurse administered lip block making the treatment very low to no pain.

New Service _____ **\$695.00 -**
 (Price determined at consult) **\$895.00**

Touch up _____ **\$475.00**
 (Price determined at consult) **- \$575.00**

Lip Blushing: Lip Blushing is a technique that adds a light tint of color to lips with a subtle lip line that looks very natural. This technique is best for clients with good skin texture, little to no lip asymmetry and no issues with lips that are missing color or that have areas with much darker color. Lip Blushing typically requires color refresh every 18 months.

Full Lip Color: This procedure is best for most clients because can correct minor asymmetry of the natural lip, bring back color to the lip line, create the illusion of a fuller lip and because more color is implanted it lasts longer than blushing. The color dictates the "naturalness" of the outcome so if a soft color is chosen then the final look will be natural. Color refresh typically at 24-36 months.

Lip Color Correction: This procedure is for clients with poor skin texture, profound asymmetry, scarring from cold sores or other reasons, areas of missing color on very fair skin or areas of very dark color on darker skin. The goal of this procedure is to create a more balanced natural looking lip not necessarily creating a lipstick color effect.

Treatment available at all locations

Medical Weight Loss

Comprehensive medical weight loss guided by our physician and nurse practitioners, including GLP-1 weight loss injections

Embarking on our medical weight loss program offers patients an exceptional, comprehensive and individualized experience designed for your success. We utilize powerful tools to help patients achieve their goals and maintain them.

This can include GLP-1 injections, oral medications and/or vitamins/supplements, as well as lifestyle modifications such as nutrition and exercise. During the weight loss journey, we see patients monthly to safely monitor progress and side effects, adjust dosing as needed and reinforce lifestyle modifications. Once maintained, we typically see patients every 12 weeks.

Personalized In-Person Appointment:

Following the screening call, you will be scheduled for an in-person appointment with one of our skilled nurse practitioners to discuss medical and family history and review goals and strategies. You will complete an InBody body composition analysis to look at your lean and fat masses, which we will continue to monitor throughout your weight loss journey. Patients' lab results are reviewed and recommendations are made to optimize health and support weight loss goals. If a patient starts a GLP-1 injection, instructions are given on self-injection and injections can start that day.

Ongoing Expert Support:

Throughout your journey, you will have full access to our expert team. We are committed to ensuring that all your questions are answered and that you feel supported and guided every step of the way. Monthly visits with our skilled nurse practitioners are included in the cost of the GLP-1 injections so they can safely monitor you, adjust dosing as needed, monitor side effects and reinforce lifestyle modifications, including nutrition and exercise.

Injections (4 shots) ————— **\$299.00 - \$699.00**
(price varies by medication and dose, includes monthly visit with nurse practitioner)

Weight Loss Management ————— **\$199.00**
(visit price not including cost of medication, which can be run through insurance)

Vitamin Add Ons

Intramuscular injections are a fast, safe and effective way to administer nutrients into the body. This process takes no more than a few minutes to complete.

Wellness Shot ————— **\$30.00 - \$60.00**

Methionine, inositol, and choline injections contain a blend of nutrients that help your body release fatty deposits. For example, inositol stimulates fat removal by your liver, while choline prevents cholesterol buildup and deposits. Methionine, an essential amino acid, helps inositol and choline work even more efficiently.

MIC injections also contain vitamin B12, which can further stimulate your metabolism and give you a boost of energy. When methionine, inositol, choline, and B12 are combined into one injection, you have a higher chance of getting rid of excess fatty deposits throughout your body. Wellness shots also aid in boosting the immune system.

Glutathione Shot ————— **\$40.00**

Glutathione is known as the 'master antioxidant.' No other nutrient works harder to detoxify your body. Concentrated in your liver, glutathione is your body's most important molecule when it comes to detoxification and eliminating free radicals. When you're under stress or toxic burden, glutathione is rapidly depleted, so supplementation can be crucial to effectively mediate these challenges.

It can also improve skin elasticity, minimize acne, blemishes, and improve pigmentation to help skin glow.

Vitamin D Shot ————— **\$30.00**

Low levels of Vitamin D is linked to various health risks. In addition to support healthy teeth and bones, Vitamin D supports brain health, promotes cardiovascular and immune function, promotes absorption of calcium and promotes lean muscle mass. Vitamin D levels should be medically monitored.

Hormone / Wellness Longevity Consultations

We take a comprehensive, individualized approach to health optimization, offering customized care in hormone therapy, medically guided weight management, peptide therapy, and overall wellness. Your consultation will be tailored to your goals, whether focused on longevity, hormone balance, or metabolic health.

During this visit, we'll review your medical and family history, discuss symptoms and concerns, and conduct a focused evaluation, which may include body composition analysis and key health markers. Based on your needs, advanced lab work may be recommended to assess factors such as hormones, metabolic health, and nutrient levels. This thoughtful, data-driven approach allows us to develop a personalized plan designed to support energy, body composition, and long-term wellbeing.

**Nurse Practitioner
(45 min)**

\$199.00
per visit

**Dr. Amy Carter
(45 min)**

\$629.00
includes 2 visits

Our \$199 nurse practitioner visit fee applies to all appointments, whether it is your initial consultation, lab review or follow-up visits. The exception is GLP-1 injection follow up visits – those follow up visits are included in the cost of the medication.

Labs will be processed through the patient's insurance or can be paid out-of-pocket through LabCorp. If you chose to see Dr. Amy Carter, there is a flat fee of \$629, which includes your consultation and one follow-up lab review visit.

Treatment available at all locations

NAD+ Injections

NAD + (nicotinamide adenine dinucleotide) is a coenzyme the body makes that helps with cellular function, energy metabolism, DNA repair, and energy production. NAD+ therapy involves replenishing or increasing NAD+ levels through injections.

Treatment involves injections of NAD+ in amounts recommended by our nurse practitioners and or physician. NAD levels decline with age and stressors. There are studies involving NAD+ and some show promising results with improved energy levels, cognitive function, skin health, mood, enhanced immune system, weight loss, DNA repair, improved athletic performance, reduced blood pressure and high cholesterol and improved Parkinsons Disease symptoms.

Single Shot

Treatment available at all locations

Bioidentical Hormone Replacement Therapy

Bioidentical hormone replacement therapy (BHRT) is a type of hormone therapy that uses hormones that are structurally identical to the hormones that your body makes.

BHRT is the preferred method of hormone replacement for both men and women going through the aging process and dealing with hormone imbalances.

Hormone Pellet Therapy - Pellet therapy involves implanting tiny pellets (about the size of a grain of rice) under the skin, where they release a steady flow of hormones over 3-6 months.

Female Pellet Placement ————— **\$399.00**
(price varies by dose | every 3-5 months)

Male Pellet Placement ————— **\$699.00**
(price varies by dose | every 4-6 months) **- \$799.00**

Non-Pellet Hormone Therapy - In addition to pellet therapy, BHRT can include creams, troches, patches, oral and injectable therapies. Symptom management and optimizing lab values are discussed in detail with experienced providers at each visit.

(price quoted at consultation)

Our \$199 Nurse Practitioner visit fee applies to all appointments, whether it's your initial consultation, lab review, or follow-up visit. Labs will be processed through the patient's insurance or can be paid out-of-pocket via LabCorp. If you choose to see Dr. Amy Carter, there is a flat fee of \$629, which includes both your consultation and 1 follow-up appointment.

Treatment available at KC & Liberty locations

Gut Health

Your gut can be the gateway to great health. Balancing the complex ecosystem in your gut can be helpful for not only gastrointestinal symptoms, but also for skin issues, brain fog, and weight management.

A nurse practitioner will conduct a comprehensive health and symptom review and order tests as indicated. These tests will help guide a course of action and individualized care plan to help restore gut health and maintain it.

1st Visit | 45 minutes

Initial Consultation for Gut Health. Review patient's medical history, symptoms, and family history. Discuss gut testing options with patient and make dietary and supplemental recommendations.

2nd Visit | 30 minutes

Follow up consultation to review gut testing and make a plan to restore gut health with appropriate medications, supplements, and dietary changes.

Nurse Practitioner ————— **\$199.00**

Includes consultation and lab review visits.
A GutZoomer kit can be ordered at an additional cost.
(cash labs are an additional cost).

Our \$199 Nurse Practitioner visit fee applies to all appointments, whether it's your initial consultation, lab review, or follow-up visit. Labs will be processed through the patient's insurance or can be paid out-of-pocket via LabCorp.

Sexual Wellness

Treatment available at all locations

Diva — Vaginal Rejuvenation

Diva utilizes a dual fractional laser to treat the tissue of the vaginal canal as well as the external vaginal tissue. Results include a reduction of mild to moderate urinary stress incontinence, increased ability to lubricate, decrease in painful intercourse, and tightening of both internal and external vaginal tissue.

Diva Package of 3 Recommend 3 treatments	\$2,499.00
Diva+ Package of 3 Addition of PRP or PDGF	\$3,299.00
DivaTyte Recommend 5 treatments	\$299.00

Our diVa+ treatment allows for additional regenerative enhancements, including PRP or PDGF, to further support treatment outcomes. PRP, or platelet-rich plasma, is derived from your own blood and used to support the body's natural healing response by helping repair and rejuvenate tissue. PDGF, or platelet-derived growth factors, offers another advanced option for regenerative support.

Downtime can include a brief period of light spotting and slight tenderness and mild cramping. The treatment takes 4 minutes and utilizes a topical anesthesia. A series of 3 treatments are recommended for best results.

Diva Maintenance	\$899.00
Diva+ Maintenance	\$1,199.00

Treatment available at KC location

Emsella

This unique technology revolutionizes both men and women's intimate health by providing those suffering from incontinence and sexual dysfunction with a completely non-invasive option.

The electromagnetic stimulation helps to strengthen weak pelvic muscles and aides in the restoration of neuromuscular control for male and female urinary incontinence.

Clients experience tingling and pelvic floor muscles' contractions during the procedure, but may resume daily activities immediately after!

Package of 6 Treatments	\$899.00	Maintenance	\$129.00
		Available after initial series	

Treatment available at KC location

Total Vaginal Rejuvenation Bundle

The 'home run' combination therapy treatment to rejuvenate women's intimate concerns.

For women seeking comprehensive pelvic wellness, combining a series of diVa laser treatments with Emsella sessions addresses both tissue health and pelvic floor strength, helping improve urinary incontinence, vaginal laxity, intimate wellness concerns, and overall quality of life more effectively than either treatment alone.

Series of 3 Diva + Series of 6 Emsella (pre-packaged & quoted upon consultation)	\$3,398.00 - \$4,198.00
--	----------------------------

Surgical & Physician-Performed

All available at our KC location only at this time.

Surgery Consultation

All surgical procedures begin with a consultation with Dr. Richard A. Korentager, MD, FACS, a board-certified plastic surgeon with over 40 years of experience.

As previous Chair of the Department of Plastic, Burn and Wound Surgery at the University of Kansas, Dr. Korentager is known for his technical precision, artistic vision, and advanced compassionate care.

Depending on your consultation needs, Dr. Korentager will spend up to an hour of dedicated time discussing treatment options, answering questions, required photography, and reviewing expectations to ensure you feel fully informed and confident before scheduling your surgical procedure.

Consultation Fee _____ **\$150.00**

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Blepharoplasty - (Eyelid Lifts)

Blepharoplasty is an outpatient surgical procedure that removes excess skin and fat from the upper and/or lower eyelids to create a more youthful, refreshed look.

It begins with a consultation with our surgeon to discuss your goals and determine if you're a good candidate — especially if droopy lids or excess skin are affecting your vision.

Most patients are back to normal activities within a couple days, with stitches typically removed about a week later. This popular procedure is loved for its natural-looking results and the confidence boost it provides.

Upper Bleph	_____	\$3,000.00
-------------	-------	------------

Upper & Lower Bleph	\$5,900.00
---------------------	------------

Lower Bleph _____ \$3,500.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Instalift Threads

Silhouette InstaLift®: The first FDA-cleared absorbable suture for cosmetic facial procedures, designed to lift and restore facial volume with long-lasting, natural results.

A quick, in-office procedure that provides an immediate lift to the cheeks with minimal downtime — most swelling, bruising, or tenderness resolves within a few days. Using Micro Suspension Technology™, tiny cones are placed in the mid-face to lift and restore volume while stimulating your body's natural collagen for gradual, long-lasting results.

Face	_____	\$3,499.00
------	-------	------------

Face & Neck	\$4,499.00
-------------	------------

Neck **\$2,999.00**

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Direct Brow Lift

An out patient surgical procedure that lifts and repositions the brows for a refreshed, more youthful appearance. Ideal for patients with low or heavy brows affecting the upper eyelid area.

Different attachment points can be used during a direct brow lift to achieve the most natural and balanced results, which will be discussed in detail during your consultation.

We also recommend waiting on any neurotoxin treatments prior to your consultation to ensure the best results and an accurate treatment plan.

Direct Brow Lift ————— \$2,500.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Direct Neck Lift

An outpatient surgical procedure that targets sagging or excess skin in the neck for a smoother, more defined contour. During your consultation, different techniques and areas of correction will be reviewed to determine the best approach for your goals.

As we age, the platysma muscle separates and forms visible bands, while skin loses elasticity and begins to sag. Fat deposits may accumulate under the chin, creating a double chin that diet and exercise cannot eliminate. A neck lift addresses these factors simultaneously, tightening muscle structure, removing excess skin and repositioning fat deposits to create a smooth, youthful contour and more defined jawline.

Direct Neck Lift ————— \$3,500.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Limited Face Lift

An outpatient procedure that uses shorter incisions—typically around the temples and ears — to lift and tighten the mid-face, jawline, and neck.

Dr. Korentager can target sagging in areas like the jowls, to improve jawline definition, and smooth the lower face, offering a refreshed appearance with a shorter recovery time than a full facelift. During your consultation, our surgeon will review the areas to be addressed and the approach best suited to your goals. We also recommend postponing any neurotoxin or filler treatments prior to your consultation to ensure the most accurate and effective results.

Limited Face Lift ————— \$4,900.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Lip Lift

An outpatient procedure that shortens the distance between the nose and upper lip, enhancing the shape, fullness, and youthful appearance of the mouth.

During your consultation, our surgeon will review different techniques and approaches to achieve results tailored to your facial structure and goals. We also recommend postponing any lip fillers or neurotoxin treatments before your consultation to ensure the most accurate and lasting results.

Lip Lift ————— \$3,000.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Ear Tacking (Otoplasty) + Ear Lobe Repair

Otoplasty is a minimally invasive outpatient procedure designed to reshape or reposition the ears for a more balanced and natural appearance.

The surgeon makes a small incision behind the ear to access the cartilage, which is then reshaped, folded, or adjusted and secured with permanent sutures. A bandage is typically worn for about a week, and a supportive headband may be recommended during recovery. Mild swelling and discomfort are common but usually resolve within a few weeks.

Ear Tacking - Unilateral ————— \$2,500.00
Single Ear Treatment

Ear Lobe Repair ————— \$500.00
Single Ear Treatment

Ear Tacking - Bilateral ————— \$3,900.00
Double Ear Treatment

Ear Lobe Repair ————— \$750.00
Double Ear Treatment

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Nano + Micro Fat Grafting

A minimally invasive outpatient procedure that uses your own fat to naturally restore volume, improve skin quality, and reduce signs of aging. This regenerative approach helps smooth fine lines, improve skin texture, and rejuvenate your overall appearance.

A small amount of fat is harvested from areas like the abdomen or thighs, processed into a fine liquid rich in stem cells and growth factors, and injected into targeted areas such as the face or hands.

During your consultation, our surgeon will review the areas to be treated, discuss the best approach for your goals. Recovery is typically mild, with some swelling or bruising that resolves within a few days to a week.

Fat Grafting Range ————— \$2,500.00 -
Priced by area(s) \$4,000.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Full Face Laser Resurfacing

An outpatient procedure that uses advanced laser technology and deep resurfacing for overall improvement in skin texture, fine lines, wrinkles, and sun damage performed by our plastic surgeon.

A consultation is required to review your skin concerns, discuss expected downtime, and set realistic expectations for treatment, healing and results. Recovery varies depending on the intensity of the treatment, but most patients experience redness, swelling, pinpoint bleeding and "social downtime" that gradually resolves over several days.

Laser Resurfacing ————— \$4,900.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Limited Liposuction

A minimally invasive outpatient procedure that targets small, stubborn areas of fat, such as the love handles, neck, and chin, to create a smoother and more contoured appearance.

Using small incisions and specialized cannulas, excess fat is gently removed to refine problem areas without the downtime of full liposuction.

During your consultation, our surgeon will review the areas to be treated, discuss the best approach for your goals, and ensure you have realistic expectations for results. Recovery is typically mild, with some swelling or bruising that resolves within a few days to a week.

Abdomen / Flanks	—————	\$4,000.00	Neck & Submental (chin)	—————	\$2,900.00
Flanks / Love Handles	—————	\$3,500.00	Thighs	—————	\$3,500.00
			Knees	—————	\$2,000.00

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Lipoma Removal

An outpatient procedure to safely remove benign fatty growths (lipomas) from under the skin. The surgeon makes a small incision to excise the lipoma, ensuring minimal scarring while removing the lump completely.

During your consultation, our surgeon will assess the size, location, and number of lipomas, discuss the most appropriate removal technique, and answer all your questions to ensure realistic expectations. Recovery is typically quick, with mild swelling or tenderness that usually resolves within a few days to a week.

Lipoma Removal	—————	\$500.00
Discount applied with multiple areas		

Prices reflect starting rates for surgical and physician-performed treatments; your consultation will provide a personalized quote.

Additional Surgical Services Available

Our surgical offerings extend beyond the procedures listed above. During your personalized consultation, our team can discuss a full range of advanced surgical options tailored to your goals, including (but not limited to) breast augmentation, abdominoplasty (tummy tuck), back lift, labiaplasty, skin lesion removal, and more.

For your comfort, privacy, and safety, advanced surgical procedures are scheduled at the Kansas City Ambulatory Surgery Center, conveniently located in Leawood, Kansas. Our team will guide you through every step of the process to ensure a seamless and well-informed experience.
